

MAY

- WEIGHT** 1629 lbs
- DIMENSIONS** 64" x 21" x 18"
- FINISHES** NATURAL | MATE | POLISHED
- COLORS**

The May bench is a robust and compact trapezoidal concrete structure. Its heaviness removes the need of anchorage, thus easily placeable and immediately integrable to any space. Albeit its husky appearance it remains an elegant and modern design. The design language makes the piece combinable with a wide range of styles.
